DETAILED ACTION

Information Disclosure Statement

Receipt is acknowledged of the information disclosure statement filed 11/07/04.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless —

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4, 10, 11, 33, 46, 47 are rejected under 35 U.S.C. 102(b) as being anticipated by Pather et al (US Pat No 6,200,604)

Pather et al disclose a composition and method of drug delivery which comprises an effervescent (to promote absorption) and a ph adjusting agent (see Abstract) for buccal, sublingual and gingival delivery. The pH adjusting agent may be used to promote dissolution (see column 4, lines 25-28). Those of ordinary skill would therefore have expected similar therapeutic results form the use of the instant composition and method given the disclosure of Pather et al. The instant multicomponent system for drug deliver which promotes dissolution and absorption would therefore have been obvious given the disclosure of Pather et al.
